Desktop and Server Migration

Please tick, if estimated

- 01 What is the total number of desktops at your campus?
- 02 How many of these boot, or dual-boot into GnuLinux?
- 03 How many servers do you have?
- 04 How many of these run on GnuLinux?
- 05 How many laptops does your campus have?
- 06 How many laptops boot into GnuLinux?
- 07 What is the total number of students at your campus?
- 08 How many of these have a PC at home?
- 09 How many Home PCs boot or dual-boot into GnuLinux?

Learning With Freedom

- 10 Do you learn computing on mukt & muft software?
- 11 Is your syllabus FLOSS-savvy?
- 12 Does your library stock sufficient books and magazines on GnuLinux?
- 13 Do you have books prescribed in your course, that are copyleft, or are under a creative commons license?
- 14 Is your library system software running on GPL or similar software?

How GnuLinux-savvy is your academic institution? Find out using this quick survey. You may print, fill-in, and give this to the Linux User Group (LUG) in your area, or even script it to validate and post the form data electronically to a site. Add more relevant fields to this if you wish.

Ask your local LUG to create a web-page for this Academia Scoreboard. Request volunteers and students to fill in data from their respective schools and colleges. Create a matrix on the local LUG site to evaluate and compare your institution with others.

GnuLinux Activities

- 15 Do you have a club for downloading, sharing, burning free software and free music?
- 16 Have you built a GnuLinux-based supercomputer?
- 17 Do you have an event similar to 'Gnunify'?

For more info on the how and why of this survey, see 'Guerrilla Warfare for Gyaan' on the linux-delhi.org website in the downloads area, or alternatively, on the niyam.com site.

Research and Development

- 18 Do your students actively participate in FLOSS projects?
- 19 Do you have an incubator lab for FLOSS projects?
- 20 Do you conduct regular research into business models and case-studies around FLOSS projects?
